MINUTES

Grant Parish Seac met with members present both in person and virtual. A parent member expressed frustration with the district's recent move to 4-day week, stating that it did not work well for her student and that the daycare required them to pay the full-time rate for less than 30 minutes of afterschool care. Also discussed was the remaining year of ESSER funding and plans for it's use. Members discussed bringing back Game Day after Covid-19. Denise Young will bring this to the Pupil Appraisal team for further discussion. A parent suggested checking with a local casino for assistance with funds for this project. Member Pam Carey discussed GUMBO games and possibly opening up the games to students with intellectual disabilities who can complete events independently. Pam also asked about having a parent education night and possibly hosting a parent support group through Google Meet.
